

# FULL-STACK, CLOUD & MOBILE DEVELOPMENT

## Curriculum

 **Cloud  
Infrastructure**

 **Mobile App  
Development**

# FULL-STACK, CLOUD & MOBILE DEVELOPMENT

## PHASE 1: FRONTEND FUNDAMENTALS

### Week 1-HTML

- **Day1** : Internet, Web Architecture, HTML Overview
- **Day2** : HTML Structure, Tags, Attributes
- **Day3** : Headings, Paragraphs, Lists, Links

### Week 2

- **Day4** : Images, Tables
- **Day5** : Forms & Input Types
- **Day6** : Form Validation
- **Day7** : Semantic HTML
- **Day8** : HTML Revision

**Weekend Mini Project 1 : HTML Personal Profile Website**

### Week 3-CSS

- **Day9** : CSS Introduction, Selectors
- **Day10** : Box Model
- **Day11** : Fonts, Colors, Units
- **Day12** : Positioning
- **Day13** : Flexbox

## Week 4

- **Day14** : CSS Grid
- **Day15** : Responsive Design
- **Day16** : Media Queries
- **Day17** : CSS Best Practices
- **Day18** : CSS Consolidation

**Weekend Mini Project 2:** Responsive Portfolio Website (HTML + CSS)

## Week 5 – Bootstrap

- **Day19** : Bootstrap Setup & Grid
- **Day20** : Components
- **Day21** : Forms & Utilities
- **Day22** : Layouts
- **Day23** : Bootstrap Revision

**Weekend Mini Project 3:** Bootstrap Business Landing Page

## Week 6 – JavaScript Basics

- **Day24** : Variables, Data Types
- **Day25** : Operators & Conditions
- **Day26** : Loops
- **Day27** : Functions
- **Day28** : Scope & Execution Context

## Week 7

- **Day29** : Arrays
- **Day30** : Objects
- **Day31** : DOM Manipulation
- **Day32** : Events
- **Day33** : JavaScript Recap

**Weekend Mini Project 4:** JavaScript To-Do Application

## Week 8 – Advanced JavaScript

- **Day34** : ES6 Features
- **Day35** : Arrow Functions, Destructuring
- **Day36** : Array & Object Methods
- **Day37** : Promises
- **Day38** : Async / Await

**Weekend Mini Project 5:** API-Based Data Viewer (Public API)

## Week 9 – FRONTEND FRAMEWORK (React / Angular)

- **Day39** : Framework Overview & Setup
- **Day40** : Components
- **Day41** : JSX / Data Binding
- **Day42** : Props / Inputs
- **Day43** : State Management

## Week 10

- **Day44** : Routing
- **Day45** : Services / Hooks
- **Day46** : Forms & Validation
- **Day47** : HTTP API Consumption
- **Day48** : Frontend Final Revision

**Weekend Mini Project 6:** Frontend CRUD Application

## Week 11- BACKEND & API DEVELOPMENT

- **Day49** : Node.js Overview
- **Day50** : Event Loop & Architecture
- **Day51** : NPM, Folder Structure
- **Day52** : File System
- **Day53** : HTTP Server

## Week 12

- **Day54** : Express Setup
- **Day55** : Routing
- **Day56** : Middleware
- **Day57** : Request & Response
- **Day58** : Error Handling

**Weekend Mini Project 7:** Basic REST API

## **Week 13- MongoDB**

- **Day59** : NoSQL & Data Modeling
- **Day60** : MongoDB Basics
- **Day61** : CRUD Operations
- **Day62** : Mongoose
- **Day63** : Schema Design

**Weekend Mini Project 8:** REST API with MongoDB

## **Week 14- Authentication & Authorization**

- **Day64** : Auth vs Authorization
- **Day65** : JWT Flow
- **Day66** : Role-Based Access
- **Day67** : Password Hashing
- **Day68** : Securing APIs

**Weekend Mini Project 9:** JWT Secure API

## **Week 15-API Tools & Payment Integration**

- **Day69** : Postman
- **Day70** : Swagger

**Weekend Mini Project 10:** Swagger Documented APIs

- **Day71** : Payment Concepts
- **Day72** : Stripe Integration
- **Day73** : Razorpay Integration

**Weekend Mini Project 11:** Payment Enabled API

## **Week 16-AWS Deployment**

- **Day74** : Cloud Basics
- **Day75** : AWS Overview
- **Day76** : EC2 Deployment
- **Day77** : S3 Hosting
- **Day78** : Environment Variables & Monitoring

**Weekend Mini Project 12:** Live Full-Stack Deployment

## **Week 17-MOBILE APPLICATION**

- **Day79** : Mobile Architecture
- **Day80** : Project Setup
- **Day81** : Navigation
- **Day82** : UI Components
- **Day83** : API Integration

## Week 18

- **Day84** : Authentication
- **Day85** : Storage
- **Day86** : Performance
- **Day87** : Build & Release
- **Day88** : Mobile Recap

**Weekend Mini Project 13:** Mobile App with Backend & Payments

## Week 19-FINAL PROFESSIONAL PREPARATION

- **Day89** : System Architecture
- **Day90** : End-to-End Flow
- **Day91** : Security Best Practices
- **Day92** : Full Revision
